As a dedicated web developer, I am passionate about building user-friendly, high-performance, secure applications. As a good team player, I am proficient in project management, design, and user experience. I also share my experiences on my blog Softforware.

EXPERIENCE

02.2024
10.2023
Full-Stack Software Developer
Mindbuddy - Istanbul

- At Mindbuddy, I developed a mobile application by applying current technologies.
- In line with the goals set by the company, I created an application that provides multi-platform support with React Native.
- I also aimed to provide a modern and fast backend service using Bun.

07.2022
08.2022
Intern
Selçuk District Health Directorate - Selçuk, İzmir

- During my internship, I had the opportunity to observe various aspects of management functions on-site.
